Company overview

Bronzeville Green Organic Landscaping was started in 2008 to help with unemployment with the residents of the South-side of Chicago.

Since then Bronzeville Green Organic Landscaping has grown into a full service landscaping company that continues to grow because we stand behind our work and provide our customers with a great value.

Bronzeville Green Organic Landscaping now provides many other professional services to our customers.

Our customers stated the reason they select Bronzeville Green Organic Landscaping is for our commitment to the environment and our extensive training for our people, we make sure the job is done right the first time. Plus we select only the best products to take care your landscape. Bronzeville Green Organic Landscaping knows your property is an investment and we treat your property like we would treat our own property.
